

Virtual/Online Learning Parent Permission (K-5)

School District: Marshall Academy

School Building: Marshall Academy

Student Name: _____

Student Grade: _____

Virtual learning is a method of receiving academic instruction in courses in which the pupil is registered and the courses are taken through a digital learning environment, in this case Google Classroom and Edgenuity. The virtual only option will be offered through this platform for the 20-21 school year. Virtual learning includes, but is not limited to, online learning and computer-based learning, where the delivery of instruction may incorporate a combination of software, technology, and the Internet. In K-5 a Marshall Academy teacher will provide content, expectations, and instruction through these two platforms. Grading will be standards based. In order for students to move onto their next grade level in 21-22, they must show evidence of mastery of the grade level standards through this format.

I, _____, parent or legal guardian of _____ give permission for his/her enrollment in district approved virtual/online course(s).

These courses will be enrolled by semester and enrollment and logging in constitutes a semester long agreement. Should the school move to remote learning, or the region move to Phase 1-3, virtual students will move into their grade level Google Classrooms.
